-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3723

1. Claim 6 is objected to because of the following informalities: The claim does not make clear which spring is further limited therein. There is antecedent basis for two springs in claim 6.

Appropriate correction is required.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 5 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is insufficient antecedent basis for the references in the claims to a second link.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-5 and 10-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Seber et al (cited by the applicant). Although the applicant indicates in the Preliminary Amendment broadening some claims that certain features encompassed by the amended claims are novel and unobvious, the prior art cited by applicant appears to indicate otherwise, as set forth in more detail below. The claims read on at least the embodiment of Fig 8 of Seber which incorporates a link mechanism that is considered to be pivotally connected between the operating lever, moveable jaw and stationary handle, as now broadly recited in the claim, based on its position. Note control arm 58 and pivot 66, among other relevant structure. Note also that these provide or are a part of a dead center locking toggle. The fixed jaw includes support 38 having the slots and

ratchet therein (coincidentally the disclosure of the instant application appears to be consistent). The movable jaw and operating lever 50 are clearly directly connected to the fixed jaw at pivot points.

6. Claims 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 16-20 are allowed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob K. Ackun Jr. whose telephone number is (571)272-4418. The examiner can normally be reached on Monday through Friday 8.30AM-5.00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on (571)272-4485. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
